## Summary

---

Motivated programmer who recently completed the Mobile Application Design & Development program at Algonquin College, with a focus on fullstack development. Currently developing skills in TypeScript, Node.js, AWS, and database management. Eager to apply my growing technical knowledge in an entry-level developer position where I can contribute while continuing to expand my capabilities.

## Education

---

**Algonquin College, Ottawa Ontario**

Expected June 19<sup>th</sup>, 2025

College Diploma, Mobile Applications Design & Development

## Technical Skills

---

Languages: JavaScript, TypeScript, HTML5, CSS3, Basic SQL

Front-End: React, Next.js, React Native, Redux, Tailwind CSS, Material UI

Back-End: Node.js, Express

Databases: Basic knowledge of PostgreSQL, MongoDB

Developer Tools: Git, GitHub, Postman, Jest

Currently Learning: AWS, Docker

## Soft Skills

---

In my current job as a Cashier at Canadian Tire, I've gained valuable problem-solving skills, excellent written and verbal communication, and strong organizational skills. Very team and detail oriented and can handle pressure well.

## Experience

---

**Footywear** - [project link](#)

**Fullstack – TypeScript, Next.js, AWS, TailwindCSS, Redux, PostgreSQL, Node.js, Express**

- Built a responsive inventory management website with charts using TailwindCSS, Recharts and Material UI.
- Stored images, and user and product data in PostgreSQL using Prisma ORM, Node.js and Express.
- Used Redux Toolkit to manage state and RTK Query for API integration.
- Utilized AWS to store images in S3 buckets, host project on Amplify, host the backend on EC2 instance, and manage the database with RDS.

**Personal Portfolio** - [portfolio link](#)

**Frontend – Next.js, TailwindCSS, Framer-Motion, JavaScript**

- Built a responsive personal website to showcase my development journey using TailwindCSS.
- Implemented animations using Framer-Motion.
